TEN MILES OF BITULITHIC ROAD

Commissioners Let Contract Yesterday.

Indian Refining Company Will Construct Road At Once—First Ten Miles From Greensboro on High Point Road To Be Put In First Class Condition—Property Owners Along Horsepen Creek Must Drain Stream At Once.

The Guilford County Commissioners yesterday contracted with the Indian Refining Company for ten miles of bitulithic road on the highway between Greensboro and High Point, the work of construction to begin at an early date. The bitulithic will begin at the corporate limits on Spring Garden street and will be built for two-thirds of the distance between the two cities. In all probability the commissioners will decide to complete the road into High Point before the present contract is finished.

As was stated in The Telegram some days ago this bitulithic is to be built on top of the present macadam foundation. It is believed that this will make a more lasting road than was a new foundation to be laid. The macadam foundation has been in place for several years and is fixed solidly. The top layers are almost worn off and the remainder of the finer macadam will be taken up for the laying of the new cover.

While the present cost is more than were the county to repair the macadam the bitulithic will last indefinitely, as automobiles cannot carry off the bitulithic. Were the road repaired with macadam it would last only a few years at longest, as the suction from automobiles rapidly wears away the finer covering of the macadam. The contract calls for ten miles at \$700 per mile, \$7,000 for the entire space to be rebuilt. This will no doubt be cheaper in the end.

The commissioners also rendered their decision in the matter of the draining of Horsepen creek by the citizens owning lands along the banks of the stream. The ruling was that unless the property owners drain the stream at once the county will do the work and assess the property owners to cover the cost of the work. This matter came up at the regular meeting last Monday and created no little discussion, final action being postponed until yesterday.

COWS ATE DYNAMITE.

Careless Farmer Minus Two Good Milk-cows in "Old Kaintuck".
Glasgow, Ky., Sept. 11.—William Bridges, a farmer, recently lost two valuable cows in a peculiar manner. He brought two sticks of dynamite home in his wagon, which he drove under a shed in the barn and left for the night. When he went out to milk next morning he found both cows lying dead and a piece of exploded dynamite told the story.

BEFORE JUDGE EURE.

Several Cases Disposed of Yesterday Morning.

Several defendants were arraigned in Municipal court yesterday morning, but the session lasted only one hour. During that time a number of laughable incidents were brought out that relieved the monotony of the occasion.

The first case taken up was State vs. Annie Jones. The defendant, a negro woman, was charged with purloining a gold watch from the home of Mr. Thomas, where she was employed until Saturday. The watch was in evidence and was recognized as the one missed by the owner. One of the witnesses had purchased the watch from the defendant, agreeing to pay for it on the installment plan. He had partially paid for it and was sporting the piece of jewelry on the lapel of his Sunday coat when Sergeant Pearce, the police officer, accosted him. He at once explained the circumstances regarding the purchase and the thief was corralled without any trouble. His Honor deemed it advisable that the defendant should go to the workhouse for about six months as the keeper is sadly in need of help in harvesting his crop of dried peas.

Edney Ridge and Felix Crutchfield pleaded guilty of engaging in an affray. After several witnesses were examined a fine of \$5 each and costs were imposed.

Stokes Ingram, colored, was charged with operating a pressing club without the formality of paying the city license tax of \$20. Stokes stated that at first he had told City Tax Collector Sherrill that he would have to wait until he got a \$50 check cashed before he could make the payment. Finally he decided he would go out of business and was only pressing up a supply of clothes for his own use yesterday morning when taken into custody. The fact was admitted that last year he had to be brought into court before he would come across with the tax. Judge Eure imposed a fine of \$30 and costs; the \$20 tax to be taken from this amount.

Lizzie Brodnax, colored, who was arrested Saturday night on the charge of retailing, was arraigned and she pleaded not guilty. James Mitchell, colored, was the chief witness and he stated that he had bought liquor at least 25 times from the home of the defendant. It cost from 15 to 25 cents per drink and 30 cents per half pint. He said he had purchased the whiskey from the defendant a number of times and occasionally had gotten it by himself. Sergeant Pearce stated that the place, which was located on Cole street, was a regular blind tiger and while he was there Saturday night no less than three people came to the rear door and knocked, the presumption being that they were after whiskey. A sentence of six months in the workhouse was imposed. Another case against the defendant was not pressed by consent.

The case against Julius Vaughn, colored, charged with abandonment and non-support of his wife and children, was the most amusing case of the morning session. Bettie Vaughn went on the stand and told a pitiful story of how her better, or worse, half had failed to provide plenty to eat and she had been forced to get rations from her mother. And for the past week he had not darkened his door. Julius stoutly denied that he had not tried his best to do the right thing by his family and while he did not go on the stand he argued his case in an amusing manner. With bacon at 15 cents and other edibles correspondingly high wages would not go very far, he argued, especially when an "ole nigger only gets 10 cents an hour." The judge saw through his argument and decided that the old negro should have another chance. So a verdict of guilty was entered, judgment being suspended, and Julius was told to get busy and not give his wife cause to complain again.

SHUT HER UP WITH SNAKES.

For This and For Attempt to Tie Her to Stove Woman Gets Decree.

Denver, Col., Sept. 11.—"That her husband had imprisoned her in a cave where there were two large snakes, from which she barely escaped with her life, and that later he attempted to tie her hands and feet and place her on a red-hot stove, was the testimony given by Mrs. Fannie R. Wood in her suit for divorce from Chester L. Wood recently. She obtained a decree.

DR. J. E. BROOKS IS EXONERATED

Charges of Dr. Williams not Substantiated.

Board of Internal Improvements Make Report to Governor Kitchen in Sanatorium Case—The Directors of Institution Capable of Handling Affairs of Institution—Recommend That No Further Action Be Taken.

The Board of Internal Improvements has filed with Governor Kitchen the report of its findings in the investigation of charges against Dr. J. E. Brooks, superintendent, and the directors of the State Sanatorium for the Treatment of Tuberculosis. The board exonerates Dr. Brooks and the directors of the charges preferred against them by Dr. John Roy Williams, of this city. It will be remembered that the hearing was held in Greensboro and lasted three days.

The report follows:

To His Excellency, the Governor: We have the honor to report: That pursuant to your commission, designating B. C. Beckwith, a member of this board, as commissioner, under Section 4844 of Chapter 101, of the Revisal of 1905, to investigate the affairs of the North Carolina Sanatorium for the treatment of tuberculosis and certain specific charges against the management of the institution, published in the Greensboro Daily News, a daily paper published in Greensboro, N. C., and in the form of an affidavit filed with this board, by Dr. J. Roy Williams, of Greensboro, N. C., on July 22, 1910, at Montrose, N. C., B. C. Beckwith as commissioner, and R. F. Beasley, sitting with him, as director of this board, began an investigation of the affairs of the said institution and the official conduct of its officers and directors. After a thorough inspection of the physical condition of this institution, its landed property, live stock, etc., for reasons deemed sufficient the hearing of the said charges was continued till August 2nd, and the court house in Greensboro, N. C., was designated as a most convenient point for all persons interested.

August 2nd, at 10 o'clock a. m., pursuant to adjournment, the board meets. Dr. John Roy Williams, who is present, in person, presents a typewritten affidavit comprising six pages of matter divided into twenty one sections, containing the charges the management of said institution and the official conduct of its officers and directors.

The superintendent, Dr. J. E. Brooks, and several directors, appearing in person and by counsel, file their answer specifically denying the allegations of the said affidavit.

A number of witnesses having been subpoenaed, are called and sworn by Commissioner B. C. Beckwith, and Dr. Williams and sworn by the commission, B. C. Beckwith, and Dr. Williams is allowed to examine and cross-examine them; and counsel appearing for the said officers, under investigation, are granted the same privilege.

The proceedings which were open to the public, were taken down in shorthand by Miss Williams, the official stenographer of the Superior Court of Guilford county, and a transcript of the stenographer's notes, together with the said affidavit, the answer thereto, exhibits and other papers introduced in evidence are herewith filed as a part of this report for a full and perfect record of the proceedings had.

The report of the Special Auditor, appointed for the purpose of going into the accounts of the institution, is also filed herewith and made a part of this report. It discloses that the system of keeping the accounts of the institution was very crude, if indeed, it was a system at all. But that a thorough "checking up" failed to discover any loss of funds appropriated by the State to the institution or belonging thereto—receipts and disbursements balancing. This unsystematic keeping of the monetary affairs of the institution has been remedied, the auditor having prepared a proper and convenient system of books.

In addition to the testimony of witnesses examined at the hearing, and that contained in exhibits and affidavit filed, and other documentary evidence constituting the record, the commissioner examined further into the affairs of the institution and the official conduct of its officers.

From the weight of the evidence, we

find as follows:

1. That the board of directors of the North Carolina Sanatorium for the Treatment of Tuberculosis has been true to its high trust; and that said board of directors is fit for the responsible duties imposed upon it by law.

2. That Dr. J. E. Brooks, as superintendent, has been faithful in the discharge of his official duties; that he is a "skilled" physician, as is required by law, and a man of high character.

3. That the large property of and the State's interest in the said institution are safely guarded.

4. That, since the institution has been reopened, it has been properly managed, and the public good does not demand the removal or suspension of its officials.

Wherefore, we recommend that no further action be taken at this time.

BOYS FOLLOW THE CIRCUS

Five of Danville's Young Hopefuls Are Picked Up Here by the Police.

The circus made a profound impression on the youth of Danville as is shown by the fact that five lads of that place followed the Robinson outfit to this city.

Sunday Claud and Al Harvey have into town from Danville intending to get work with the circus. The police were notified. Officer Causey rounded the two boys up and dispatched them back to their mothers at Danville.

Last night the police got wind that there was another bunch of young hopefuls here from Danville in the wake of the party. She was Viola Gentry, aged 13, there were three boys—Spot Graveley, Willie Warren and Otis Wells. The three boys said the girl was looking for work in the cigar factory. As for themselves they said that the Harvey boys were the cause of their coming here. They said the Harvey boys on returning to Danville told them that they could make \$4.50 a week and board working for the circus. So they boarded 35 last night, paying their way with money they had earned.

Mr. Gentry came in on No. 29 last night and carried the erring children back home, leaving on No. 30 early this morning.

CAPITOL LIGHTING

Arrangement For Wiring Being Made—The Democratic Handbook.

Raleigh, Sept. 12.—The arrangement of the electric lights in the State Capitol is now being made. There will be double rings of these lights in the dome, so as to make the rotunda very brilliant. There are also circles of lights in the halls of the Senate and House. All the work harmonizing with the interior of the building.

Democratic State Chairman Eller today finished the handbook of the party which is to be given a very great circulation this year. It is at once the largest and best ever issued by the party in North Carolina. Capt. Samuel A. Ashe gave invaluable aid in its preparation.

At Shaw University, colored, work goes on rapidly on the new Leonard hospital, which will be a model. This will give Raleigh two negro hospitals, both high class. The new Rex Hospital has nearly finished its first year, and has made a very notable record. Mr. John T. Pullen the president of Raleigh Savings Bank, has made the hospital a gift of \$1,000, to meet some pressing obligations.

The number of freshmen this term at the Agricultural and Mechanical College here is 212, which breaks all the records. There is to be no hazing this term. There has been none for two years past.

UNDER PEACE BOND, HAD TO FIGHT IN SELF DEFENCE

But Dave Stinson, Witnesses Said, Waited Until He Had Been Struck Several Times.

At 10 o'clock last night Dave Stinson and Will Stockard, the latter of Reidsville, had a fierce fight in front of the Clegg hotel. From the accounts of bystanders, Stockard was the first man to get in a blow. In fact he struck Stinson several times, Stinson explaining his inaction by saying that he was under a peace bond. Presently, however, Stinson came out from under the peace bond and made things lively for the other man. Bystanders said it was the hardest fight they ever saw. Both men were put under a \$25 bond to appear before Judge Eure this morning.

A DEATH AT PLEASANT GARDEN

Miss Lizzie McDonald Died Yesterday—Funeral Today At 2 O'clock—Other News From Southern Part of County.

Pleasant Garden, Sept. 12.—Miss Lizzie McDonald, who has been very sick for some time, died Sept. 12, and will be buried at Pleasant Garden at two o'clock, Sept. 13.

Mrs. E. R. Tucker, who went to St. Leo's September 9 for an operation, is getting along very nicely.

Col. D. G. Neelley who has been very sick for ten days, is no better.

Rev. R. A. Taylor filled his appointments at Pleasant Garden and Bethlehem Sunday but left Sunday afternoon for Mooresville to be with his wife, who is very sick with fever. Mrs. Taylor went to Mooresville some weeks ago to visit her mother, and Mr. Taylor was called there two weeks ago on account of her sickness.

Miss Mabel Fentress will go to Liberty Sept. 17, having accepted a position as music teacher in the graded school there.

Mr. Carl Pike and family of Greensboro, spent Saturday and Sunday with Mr. and Mrs. Fred Fentress.

Mr. Brison Hockett has entered school at Guilford College.

The High School at this place has had a very prosperous opening. New students are continually coming in. The eastern half of the county is well represented and there are quite a number of students from Randolph county. The old auditorium has been remodeled for a dormitory for the boys and the new auditorium will be begun soon.

SEARCH FOR A GIRL.

Missing Daughter Caused No Little Excitement Early Last Night.

There was considerable excitement last night because of the disappearance of a young girl from her home. Her people feared that the girl had made up her mind to follow the show and the aid of the police was invoked. Together with friends of the girl the officers searched high and low even going through the circus trains before they pulled out, but to no avail. However, she was found at home shortly after the trains had left.

The girl had left her home to attend the afternoon performance and had slipped back and taken her valise. As soon as she was missed the girl's people notified the police, but when she came back home before bedtime the officers were not so informed and the search continued. A friend of the family thinking she might have gone home called about 1 o'clock this morning and the search was ended. He found the valise hidden nearby. No explanation as to her whereabouts was obtained. It is believed that the girl intended to leave with the circus people, but the officers were watching so close that she was afraid of being taken up and gave up her plan, hoping to slip the valise back home early this morning, or after her people had gone to bed.

Stole Pocket Knives.

The police yesterday arrested Sylvester Spangh and Len Stout, two small white boys, on the charge of stealing a number of costly knives from the store of the Odell Hardware Company. It seems that one of the boys was locked up in the store Saturday night and after gathering in about a dozen fine knives, worth from five to seven and a half dollars each, went out through the rear door, carrying the key. The police were notified yesterday morning and soon one of the boys was caught. Several of the knives were disposed of by the boys at the show grounds, but about all of the knives were recovered. The lads must have taken the knives with a view of converting them into circus funds, for they would have seen the show had the officers not been so active. The boys will be before Judge Eure this morning.

COLLEGES READY FOR FALL WORK

G. F. C. And Normal Open This Week.

Every Available Room In Both Institutions Taken—New Teachers This Year—G. F. Formally Opens Tomorrow Morning—Examinations At Normal Thursday and Friday and Active Work Begins Next Monday—Fine Outlook.

Students of Greensboro Female College and the State Normal and Industrial College are already arriving and today and tomorrow the trains will be well filled with dignified seniors, enthusiastic juniors and blushing freshmen. The formal opening of G. F. C. will take place tomorrow morning, while the examination of advanced students at the Normal will be held Thursday. Other examinations will be held at the Normal Friday and the active work will commence next Monday.

While the opening at G. F. College does not take place until tomorrow morning at 9 o'clock all students from the city are requested to meet this morning at the college to register and attend to their classification. The students from out of the city who have arrived will attend to this work also. President Foust, of the Normal, states that every available room in the spacious dormitories had been taken two months ago and numbers have been refused on account of lack of accommodations. Some of the students will board in nearby homes, but this is not encouraged by the institution. Every dormitory room at G. F. College has been taken and a number of the students have rooms with private families living adjoining the college. Mrs. Robertson says. At both institutions scores of students, in addition to those who will be here, would have attended had there been adequate accommodations. The outlook is for a fine year's work at each institution.

There are several additions to the faculties of these noted institutions of learning this year. At G. F. College the following new teachers have been secured: Miss Martha Jones, of Nashville, Tenn., who will have charge of the Science department; Miss Nettie Rupert, of Magraw, O., who will have charge of the Preparatory department; Miss Carlotta Mitchell, of Anniston, Ala., who will have charge of the Physical Culture and Expression departments; Miss Susie Huffines, of Indianapolis, Ind., who will be assistant teacher of piano; Mr. Henry Foote Perrin, of Atlanta, Ga., who will assist in the Music department, and Mr. D. L. Clark, of Allen, Ky., who will have charge of the English department.

Following are the new members of the State Normal Faculty: Prof. A. S. Hill, of New York City, director of music; Miss Claudia Crumpton, of Montevallo, Ala., and Miss Mary K. Daniel, of Louisville, Va., who will assist in the Department of English; Miss Eva Washbury of the Boston School of Gymnastics, who will be assistant in the Department of Physical Culture; Miss Mary Miller, of Montgomery, Ala., who will be assistant librarian.

Pomona Graded School Opens Tomorrow Week.

The Pomona graded school will open Monday morning, Sept. 19. A teachers' meeting will be held Saturday morning, Sept. 17, at ten o'clock. All new pupils above the first grade wishing to enter the school will please see me at school building Friday morning, Sept. 16, between the hours of 9 and 12. All who have the promise of an examination this fall will assemble in the school chapel promptly at 8:45 o'clock, Thursday morning, Sept. 15. Miss Bessie Howard, principal.

Football Practice.

The aspirants for positions on the High School football team were out yesterday afternoon for their first practice, the boys foregoing the pleasure of witnessing the circus performance for an hour's work on the gridiron. Mr. S. Clay Williams will coach the team again this year and he states that he will have the best team the high school has ever sent out. It will be some time before the regular eleven is selected from the squad. Mr. M. L. Wright, manager, is already arranging for a schedule of games with other high schools in the State.

HIDDEN DANGERS.

Nature Gives Timely Warnings That No Greensboro Citizen Can Afford to Ignore.

DANGER SIGNAL NO. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy, or a thick, red, ill-smelling urine, full of sediment and irregular of passage.

DANGER SIGNAL NO. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys, diabetes and Bright's disease. Doan's Kidney Pills cure sick kidneys and cure them permanently. Here is proof in the statement of a nearby resident.

F. M. York, Shelton street, High Point, N. C., says: "Several years ago I suffered severely from pains across the small of my back and I was so lame at times that I could hardly arise from a sitting position. The kidney secretions were unnatural and caused me a great deal of annoyance. Hearing of Doan's Kidney Pills, I procured a supply and began their use. Several boxes banished the pains in my back and restored my kidneys to a normal condition. I always keep Doan's Kidney Pills in the house, as I know they are a reliable kidney remedy."

THE REAL TEST

Dr. Herpicide Is In Giving It A Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vigorizers may look nice and smell nice, but the point is—do they eradicate dandruff and stop falling hair? No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use." It is a delightful dressing, clear, pure and free from oil or grease. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

One dollar bottles guaranteed. Write: Klutz Drug Co., and Greensboro Drug Co., Special Agents.

CERTIFICATE OF DISSOLUTION.

State of North Carolina,
Department of State.

To All to Whom These Presents May Come—Greeting:

Whereas, It appears to my satisfaction, by duly authenticated record of the proceedings for the voluntary dissolution thereof by the unanimous consent of all the stockholders, deposited in my office, that the Greensboro Pepsi-Cola Bottling Company, a corporation of this State, whose principal office is situated in the City of Greensboro, County of Guilford, State of North Carolina (W. S. Hire, Secretary, being the agent therein and in charge thereof, upon whom process may be served), has complied with the requirements of Chapter 21, Revisal of 1905, entitled "Corporations," preliminary to the issuing of this Certificate of Dissolution:

Now, Therefore, I, J. Bryan Grimes, Secretary of State of the State of North Carolina, do hereby certify that the said corporation did, on the 22d day of August, 1910, file in my office a duly executed and attested consent in writing to the dissolution of said corporation, executed by all the stockholders thereof, which said consent and the record of the proceedings aforesaid are now on file in my said office as provided by law.

In Testimony Whereof, I have hereto set my hand and affixed my official seal, at Raleigh, this 22d day of August, A. D., 1910.

NO AMERICAN "WONDER"

Of Seven Works of the World, Five Are Utilitarian in Idea.
Harrington Emerson in Engineering Magazine.

Of the seven modern wonder works of the world not one is American. One of them, 400 years old, has its inspiration in religion—St. Peter's at Rome, the largest church ever built; the second, 100 years old, is the greatest triumphal arch ever erected, commemorating the victories of the great conqueror, Napoleon I; the five others are modern engineering works. It is typical of the changed ideal of the ages that only one of the ancient wonders was utilitarian and only one of the modern wonders is religious, five being very distinctly utilitarian; yet noble ideals gave all birth.

Of the utilitarian works the Suez Canal easily comes first. It shortens the sea route from Northern Europe to the Orient by 5,000 miles, between certain ports more than half. The canal was begun in 1859, estimated to cost \$30,000,000 and to be finished in 1864. Its actual cost was \$80,000,000 and it was opened in 1869. The ideal was realized, but none of the 11 other efficiency principles was thoroughly applied most of them not at all; hence both the double time and trebled cost.

The next great engineering work was also French, the Eiffel Tower, rising a thousand feet into the air, at once the highest structure erected by man and the prototype of modern American steel construction, which as a matter of course followed when passenger elevators or lifts were made practical.

The third great wonder is the Fifth of March Bridge; cantilevers, similar to three pairs of great Eiffel Towers, each pair joined at its base, each half stretching out horizontally 900 feet without end support. This bridge is massive in design because wind pressure is more dangerous than trainload.

The fourth modern wonder is the St. Gothard tunnel, 12 miles long under the Alps. There was a Brenner Railroad route over the Austrian Alps; a Mount Cenis tunnel under the French Alps, but Italy, Switzerland and Germany combined to divert the century-old trade between South and North to a shorter new route, the key to the situation being the long tunnel, more than twice as long as any American railroad tunnel.

The seventh and last of the modern wonders are twin cousin ships, the Lusitania and the Mauretania, subsidized and designed to restore to Great Britain the blue ribbon of the sea. Of these seven wonders one belongs to Italy, one jointly to Italy and Switzerland, three belong to France and two to Great Britain.

HAIR SOFT AS SILK.

New Scientific Treatment Kills Dandruff Germs and Makes Hair Soft.

It is an accepted fact, a proven fact, that dandruff is a germ disease; and it is also a demonstrated fact that Newbro's Herpicide kills the dandruff germ. Without dandruff falling hair would stop, and thin hair will thicken. Herpicide not only kills the dandruff germ, but it also makes hair as soft as silk. It is the most delightful hair dressing made. It cleanses the scalp from dandruff and keeps it clean and healthy. Itching and irritation are instantly relieved, and permanently cured. There's nothing "just as good." Take no substitute. Ask for "Herpicide." Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.

A Reliable Medicine—NOT A NARCOTIC
Mrs. F. Marti, St. Joe, Mich., says Foley's Honey and Tar saved her little boy's life. She writes: "Our little boy contracted a severe bronchial trouble and as the doctor's medicine did not cure him, I gave him Foley's Honey and Tar in which I have great faith. It cured the cough as well as the choking and gagging spells, and he got well in a short time. Foley's Honey and Tar has many times saved us much trouble and we are never without it in the house." A Possible Remedy.
"The ocean doesn't seem to agree with you," consoled the ship's doctor, who had prescribed everything conceivable.

"Perhaps it would," moaned the other. "I haven't tried it yet."—Puck.

Your kidney trouble may be of long standing, it may be either acute or chronic, but whatever it is Foley's Kidney Remedy will aid you to get rid of it quickly and restore your natural health and vigor. "One bottle of Foley's Kidney Remedy made me well," said J. Sibbull, of Grand View, Wis. Commence taking it now." Holton Drug Co.

The Appalachian Exposition a Blaze of Glory; South's Big Show Event of the Year Now Open

BIRD'S EYE VIEW OF THE APALACHIAN EXPOSITION GROUNDS, KNOXVILLE, TENN., SEPT. 12 TO OCTOBER 12.

APPALACHIAN EXPOSITION

Big Show at Knoxville Opens Promptly on Time With Everything Ready.

Thousands of Visitors Attend the Opening Day and Are Astounded at Completeness and Excellence of the Big Exposition.

Buildings and Grounds Represent a Million Dollars Outlay.

President Taft and Ex-President Roosevelt to Be Visitors. Wrights, Brothers Aeroplane, Brooks' and Weber's Bands and Other Special Features Scheduled.

Lowest Railroad Rates Ever Given An Exposition.

Knoxville, Tenn., Sept. 12.—The widely heralded Appalachian Exposition, the South's only big affair of this kind for 1910 opened in a blaze of glory here today and Knoxville has made good her promise to give the South the biggest and best exposition of this kind which has been held or will be seen south of the Ohio river for years.

The amount of money invested in the buildings and grounds represent one million dollars and work on the same has been under way for the past twelve months. The foundation idea of the exposition is to exploit the resources of the South, particularly that section of the South known as the Appalachian region.

Owing to the fact that all the southern railroads have given rates for this exposition, the lowest ever given to any exposition, one cent a mile, preparations have been made to take care of the enormous attendance which this low rate insures. Conservative estimates place the figure at not less than one million during the thirty days the exposition will be open, September 12th to October 12th.

STREET CAR SCHEDULE.

Following is the street car schedule of the North Carolina Public Service Company:

For Proximity.
Beginning at 6 a. m. and continuing until 11:00 p. m. cars leave Court Square on the hour, at 15 minutes past, half past and 15 minutes before the hour.

For Piedmont.
Beginning at 6 a. m. and continuing until 11:00 p. m. cars leave Court Square on the hour.

For Gate City.
Beginning at 5:45 a. m. and continuing until 11:00 p. m. cars leave Court Square at 15 minutes before the hour on the hour, and 15 minutes after the hour.

Sundays the cars start two hours later than on week days, but otherwise the schedule is the same on Sundays as on the other days of the week.

Electric Bitters

Succeed when everything else fails. In nervous prostration and female weaknesses they are the supreme remedy, as thousands have testified. FOR KIDNEY, LIVER AND STOMACH TROUBLE it is the best medicine ever sold over a druggist's counter.

Knoxville hotel people have made unusual efforts to be ready to take care of the crowds and two large new hotels have been opened in this city during the past year. The public comfort committee has also arranged for accommodations in boarding houses, etc., in the city to the extent of 20,000 visitors per day and has also taken steps to see that no increase has been made in any rates for accommodations; consequently

The live stock, races and horse show features will be on the largest scale of any attempted in the South. \$25,000 has been expended in pyrotechnics, such as Paine's "Battle of the Clouds," "Fall of Pompeii," etc.

The following is a general program of the exposition events:

THE UGLY LEOPARD

He Is a Cattle Thief and Even a Human Being Thief.

WORSE THAN LION OR TIGER.

Seizes Its Prey by the Throat and Clings With Its Claws Until It Breaks the Spine of Its Victim or Strangles It.

Less in size, but even more ferocious, the leopard has a worse character than the tiger or lion. Living mainly in trees and very nocturnal, this fierce and dangerous beast is less often seen than far rarer animals. It is widely spread over the world from the Cape of Good Hope to the Atlas mountains and from southern China to the Black Sea, where it is sometimes met with in the Caucasus.

Any one who has frequented the zoo for any time must have noticed the difference in size and color between leopards from different parts of the world. On some the ground color is almost white, in others a clear nut brown. Others are jet black.

Wherever they live leopards are cattle thieves, sheep thieves, dog thieves and human being thieves. Though not formidable in appearance, they are immensely strong, and it is not unusual for them to turn man eater. Both in India and in Africa they have been known to set up in this line as deliberately as any tiger. They have four or five young at a birth. The cubs can be kept tame for some time and are amusing pets, but it is extremely dangerous to have them about.

In Hongkong an Englishman had a tame leopard. It was brought into the dining room by a coolie to be exhibited to the owner's guests. Excited by the smell of food, the leopard refused to go out when one of the women, who did not like his looks, asked that it be removed. The coolie took hold of its collar and began to haul it out. It seized him by the neck, bit it through and in a minute the coolie was dying, covered with blood, on the dining room floor.

The Chinese leopard ranges as far north as the Siberian tiger and, like the latter, seems to grow larger the farther north it is found. The color of these northern leopards is very pale, the spots are large and the fur is very long.

The natives of all countries are unanimous in declaring that the leopard is more dangerous than the lion or tiger. They have no fear of the lion, provided they are not hunting for it, for it will not attack unless provoked, but a leopard is never to be trusted.

In Africa a number of natives were firing the reeds along a stream. One of them, a boy, being thirsty and hot, stooped down to drink. He was immediately seized by a leopard. The boy's brother, with an admirable aim, hurled his spear at the leopard while the boy was in his jaws. The point separated the vertebrae of the neck, and the leopard fell stone dead. But the boy could not recover. The leopard's fangs had torn open his chest and injured the lungs. The latter were exposed to view through the cavity of the ribs. He died during the night.

Leopards are essentially tree living and nocturnal animals. Sleeping in trees or caves by day, they are seldom disturbed. They do an incredible amount of mischief among cattle, calves, sheep and dogs, being especially fond of killing and eating the latter.

They seize their prey by the throat and cling with their claws until they succeed in breaking the spine or in strangling the victim. They have a habit of feeding on putrid flesh. This makes wounds inflicted by their teeth or claws liable to blood poisoning. Nothing in the way of prey comes amiss to them, from a cow in the pasture to a fowl in its roost.

In the great mountain ranges of central Asia the beautiful snow leopard is found. It is a large creature, with thick, woolly coat and a long tail like a fur boa. The color is white, clouded with beautiful gray, like that of an Angora cat. The edges of the cloudings and spots are marked with black or darker gray. The eyes are very large, bluish gray or smoke colored. It lives on the wild sheep, ibex and other mountain animals. In captivity it is far the tamest and gentlest of the large carnivora, not excepting the puma. Unlike the latter, it is a sleepy, quiet animal, like a domestic.

The West African leopard skin is more handsome than the Asiatic, the spots being very distinct and clear. He and she—they usually go in couples—are fond of hunting cantonments and around native towns, where they pick up a goat and now and then a baby.

One night I was camped in a native town and after I had retired the natives, as was their custom, were sitting about a great fire asking my caravan all sorts of questions, for the African savage is the greatest gossip in the world. Suddenly a child's cry rang out, followed by a great clamor. Rushing out to discover the cause of alarm, I was informed that a leopard had stolen from the darkness and quick as a flash had grabbed a four-year-old child and made off with it. The child was seated in the midst of the grown men and women. The latter could only lament their loss. They knew it was useless to try to pursue the beast into the dense bush.

The leopard is so bold that even in daylight he will wander about a town or a white man's premises. It is not at all unusual to get a good shot at a leopard from a bungalow veranda or a mud hut door.—Pittsburg Dispatch.

A great quiet will settle down on the country when Col. Roosevelt gets back to Oyster Bay.

It cost Hoke Smith \$10,000 and his friends \$7,000 for him to get the Democratic nomination for Governor of Georgia. The money, we take it, was all spent for legitimate purposes and it does not seem excessive. Governor Brown spent only about \$4,000, indicating that he hadn't much hope of renomination anyhow.

The Democratic State Committee of New York has unanimously endorsed Mayor William J. Gaynor, of New York, for Governor. If nominated, he will probably be elected. And then he will certainly give Uncle Jud Harmon a mighty close race for the Democratic Presidential nomination in 1912. It begins to look as if the next President's name will begin with a G.

The Chicago man who wasn't allowed to sit at a banquet of a club of which he was a member because a visitor had declined to "break bread" with him has resigned his membership in the club. It was a very creditable act whatever else may be said about the man's record. A man's club is supposed to be composed of a man's friends and a man's friends oughtn't to be ready to throw him overboard every time the wind changes.

We hope the committee will "come on" with their lighting proposition to the Public Service Company and that the Public Service Company will give a prompt answer to the proposition. The matter has been in controversy so long that it seems there can't possibly be any excuse for drawing it out longer. We believe that the closing of a contract for adequate lighting of the streets of Greensboro would have an immediate effect towards improving trade conditions. The prospect of a well-lighted city will put every one or many at least in better humor. Turn on the light!

As a result of an argument over a purchase amounting to 50 cents, Clarence Cook, railroader, is dead at St. Albans, Vt. Va., and John Sutherland, drug clerk, is under arrest charged with murder. Cook was knocked down and fell in such a way that his neck was broken. And all over fifty cents! Really if men must abuse one another enough to bring on a fight, they ought to do it about something that is relatively important. But of course in the heat of anger men do not take time to weigh consequences and the real lesson to be learned from incidents like the above mentioned is that men shall study the emotion of anger and see if they cannot make themselves its master.

Another cure for tuberculosis is offered to the scientific world, this time by Prof. Helouis, a Frenchman. He has arrived in this country to show physicians just how his cure works and will make his headquarters at Cambridge Springs, Pa. His treatment is known as "the vanadium treatment." He explains the cure as resulting from "the easy breaking down of vanadium salts, that give up their oxygen as a result of internal reactions." The oxygen rapidly kills disease breeding germs, he adds. Vanadium will kill bacteria of other diseases, he asserts, and also end ailments due to defective nutrition. It may be administered internally, by hypodermic injection or externally.

Governor Patterson, of Tennessee, seeing the coming storm, has run to cover. Saturday he withdrew from the race for Governor. Just what effect this will have on the political situation in

Tennessee remains to be seen. Gov. Patterson wants the Democrats to unite on a candidate for Governor, but many of them, supposing that Patterson would adhere to his determination to remain a candidate to the end, have pledged themselves to vote for the Republican candidate so great was their hostility to Patterson. Whether Patterson's getting out of the race absolves them from their pledges is a question. The prospect certainly is at present that a Republican will be elected Governor of Tennessee.

The United States Brewers' Association has statistics to prove that more beer is consumed under prohibition than under license. Then, why doesn't the U. S. B. A. whoop it up for prohibition? —Richmond Journal.

We doubt if the Brewers' Association would find it difficult to answer the Journal's question. It would say that it could not find satisfaction in a business a part of which was based on the activity of blind tigers. It is a stock argument with the advocates of the legalized sale of intoxicating drinks to say that prohibition does not lessen the sale of liquor but only results in wholesale violation of law. But they have never proved yet that prohibition does not lessen the sale of liquor. Close inspection of their claims will always show that they are withholding some fact essential to a fair comparison.

INDIANS AND BULLETS.

A Sample of the Strenuous Life in Kentucky in 1777.

In 1777, while Harrodsburg, Ky., was so beset with Indians that the inhabitants were in straits for daily bread, a young man, only sixteen years old, made himself extremely useful by venturing out of the fort before day-break and returning with a load of game after nightfall. This intrepid youth was James Ray, afterward General Ray.

One day in the year just mentioned Ray and another young man were shooting at a mark near the fort, when the second man was suddenly shot down by the Indians. Ray looked in the direction whence the shot had come, saw the enemy and was on the point of raising his rifle when he was set upon by another band who had crept near him unseen.

He took to his heels and, being a quick runner, reached the fort amid a shower of bullets, but the gates were shut, and the men inside were so frightened that they dared not open them. Finding himself shut out, Ray threw himself flat on the ground in the rear of a stump, and here, perhaps seven steps from the fort and within sight of his mother, he lay for four hours, while the bullets of the Indians tore up the ground on either side of him.

At last he grew impatient and called out to the garrison:

"For heaven's sake, dig a hole under the cabin wall and take me in!"

The men inside set to work immediately, and the brave young hunter was speedily safe inside the fort.

IMPROVEMENTS AT BINGHAM.

Opening Postponed to September Fifteenth.

On account of extensive improvements now being made, The Bingham School, Mebane, N. C., will postpone opening till September fifteenth. The barracks are being thoroughly renovated and painted, and a complete Pneumatic Water Supply System installed with new hot and cold shower baths and sanitary toilets.

A new tennis court is being made on the Athletic field, and a part of the grove has been ploughed and sowed in peas preparatory to sowing lawn grass. The large farm has been put in good condition and the plentiful crops of vegetables and fruit will supply the boarding department. The Jersey herd have been examined by the State authorities and pronounced free from disease, thus insuring a pure milk supply. Quantities of beans, tomatoes, cucumbers, peaches, pears, apples, etc., have been canned and preserved for winter use, and barrels of apple vinegar made.

Among the additions that have been made to the equipment are five new L. C. Smith Visible Typewriters of the latest model, and a complete outfit of Edison Business Phonographs.

A large faculty of efficient and scholarly men have been engaged.

Twelve states are already represented in the enrollment, although the session has not yet opened. The term will be the same length as usual. It

**MR. A. J. KLUTZ HURT
IN AUTOMOBILE WRECK.**

Miss Bessie Rankin and Mrs. C. Guy Ferguson Slightly Injured.

As Mr. A. J. Klutz, Miss Bessie Rankin and Mr. C. Guy Ferguson, all of this city, were returning in Mr. Klutz's auto from Charlotte yesterday afternoon at 2 o'clock the auto turned turtle between Concord and Kannapolis, all of the occupants being caught beneath the car. Mr. Ferguson escaped injury, while Mrs. Ferguson and Miss Rankin suffered slight injuries. Mr. Klutz was seriously injured, there being several deep wounds with a possibility of internal injuries.

Mr. and Mrs. Ferguson and Miss Rankin returned to the city last night on the six-thirty train, but Mr. Klutz had to be taken to the hospital in Salisbury for treatment. It will be several days before he will be able to get out, barring the possibility of injuries of an internal nature. While the ladies were not seriously injured they were shaken up considerably and it is almost miraculous that their injuries were not more serious.

It seems that the car was bowling along at a 25 mile an hour clip and as the machine neared a turn in the road Mr. Klutz applied his brake to slow down for the curve. The brake failed to work and the car was going too fast to take the sharp turn. Consequently the machine upset as it rounded the curve falling on top of the occupants. Mr. Ferguson managed to get out and extricated the others from their perilous position. Medical aid was hurriedly summoned for Mr. Klutz, who was at first thought to be more severely injured than later developments proved. The

machine was not badly damaged, excepting one wheel.

A HUMAN DERELICT.

Former Quartermaster of Olympia in Hard Lines.

Drifting about in the lower East Side, New York, is a human derelict known to the children as "Andy." They know him only as an old sailor who is "down and out"—so "down" that he scrubs the hallways of a foul Jewish tenement for \$1 a week and "board" that many a dog would not touch. His "bedroom" is so disreputable that he often sleeps by preference in the park or in a hallway.

But "Andy" is neither a "bum" nor an applicant for charity. He stands erect upon his feet, in spite of his 73 years, and looks every man squarely in the eyes when he talks—and there is no whine in his voice. And if any citizen of the East Side is looking for fight, an insult to "Andy" will quickly bring it.

For "Andy" is not only a sailor—he is a veteran of the American Navy. He knew Admiral Dewey when he was "Commodore" Dewey and "Andy" was quartermaster on the Olympia and had charge of the steering of the battleship when it crept into Manila bay. He left the Olympia only when the ship went out of commission, after Admiral Dewey's triumphal return—and soon thereafter the old quartermaster was put out of commission.

It is to be hoped that the fool who rocks the boat will not transfer his attentions to the aeroplane.

**JOHN ROBINSON'S
CIRCUS YESTERDAY**

Performances Yesterday Afternoon and Last Night Well Attended—Excellent Parade Yesterday Morning—Several New Features in Addition to the Regular Acrobatic, Aerial and Equestrian Feats.

John Robinson's circus was here yesterday and all during the day the city was agog with the excitement which usually pervades a city on circus day. The circus arrived early Sunday morning and several of the tents had to be put up at once in order that the animals might be given the proper attention.

The circus grounds were on South Ashe street and all during Sunday and yesterday hundreds of people gathered to witness the work. And the preparations are fully as interesting as the performance itself. The animals have to be watered and fed and the mammoth canvas swung into place. Every hand knows his place and the huge tents go up with the precision of clock work. They come down in the same manner and every guy line has a certain place and must be placed in order to prevent confusion when the tents are again pitched.

The parade yesterday morning was fully up to the usual standard and thousands crowded the sidewalks as the pageant traversed several streets. While there was not an overabundance of animals those carried by the show showed that they had received careful treatment. There were six elephants about the same number of camels.

Two performances were given in the city, one yesterday afternoon and the other last night. The attendance at the night performance was even larger than at the afternoon performance when upwards of two thousand people were present. With the exception of two or three new feats there was the usual acrobatic, aerial and equestrian feats. The entire performance was up to the usual standard, with one or two exceptions. Some of the bareback riding was especially fine.

There was the strong man, who handled 100 pound dumb bells with ease, slung a 150 pound weight around with his teeth as if it was an apple, shouldered an 800 pound dumb bell and allowed four men to swing from the heavy weight. To cap the climax fifteen men stood upon a platform and the performer poised beneath and swung the plat-

form full of men clear of the supports. Another feat worthy of special mention was the lady who held one end of a lax wire in her teeth and allowed a wire performer to go through several stunts on the wire.

Long before the night performance was concluded the hands were busy packing and loading the animals and paraphernalia and as soon as the last person had emerged from beneath the huge canvass it fell with a thud and before the spectators had gotten home the entire outfit was on the special train of cars ready to be pulled to the next city.

LOVE LETTER ASTRAY

WINS A HUSBAND.

Wrong Man Who Received Missive Proves to Be Right Man at the Altar.

Seranton, Pa., Sept. 11.—Travelling from Pensacola, Fla., to meet his bride that he had never seen, Thomas N. McCartney arrived in Carbonade last night, and this evening was wedded in the parochial residence of St. Rose church to Frances Donnelly.

The marriage ends a most remarkable courtship. The bride, 20 years old and pretty, was corresponding with Frank McCartney of Atlanta, when one of her letters went astray and fell into the hands of Thomas N. McCartney. He answered the missive and straightway the other man was forgotten. That was a year ago, and constant correspondence fed the flames of love until he proposed and was accepted by mail, photographs having been exchanged meanwhile.

When the bridegroom and bride met for the first time last night, both expressed themselves as satisfied with the bargain, and it was sealed by the marriage ceremony today. The couple will reside in Florida.

FLY IN THE OINTMENT.

One of the Things Republican Text Book Does Not Specify.
Cleveland Plain Dealer.

Says the always entertaining text book:
"What grand results have come to us as a nation and as a people in these 50 years, during only two of which the Democratic party has been in complete control of the government."

Truth could not be more accurately stated. Our population has nearly trebled; territorial expansion has kept pace with national ambition; industries have multiplied and been diversified; great cities have sprung into existence; electricity has been harnessed for man's utility; even the air has been conquered and the old world brought leagues nearer us by the development of the fast ocean liner—all, the text book would have us believe, because the Republicans have had an all but unbroken control of the government. But—

The cost of living has leaped upward at a frightful rate; the percentage of unpunished crime has increased to a point that appals; the quality of immigrants has notably deteriorated; natural resources have been shamefully sacrificed; trusts have come to dominate industry and commerce and threaten to manipulate the nation's food supply; floods have devastated and killed; droughts and forest fires have destroyed millions in wealth—all because of what? Because the Republicans have controlled the government for most of the last 50 years? The textbook sayeth not.

The Lash of a Fiend
would have been about as welcome to A. Copoor, of Oswego, N. Y., as a merciless lung-racking cough that defied all remedies for years. "It has most trouble some at night," he writes, "nothing helped me till I used Dr. King's New Discovery which cured me completely. I never cough at night now." Millions know its matchless merit for stubborn colds, obstinate coughs, sore lungs, la-grippe, asthma, hemorrhage, croup, whooping cough, or hayfever. It relieves quickly and never fails to satisfy. A trial convinces. 50c., \$1.00. Trial bottle free. It's positively guaranteed by Fariss-Klutz Drug Co.

LORDLY FORMALITIES.

Preparing a New Peer For His Seat in House of Lords.

Numerous formalities have to be gone through before any new peer is entitled to take his seat in the house of lords.

One of the most important matters is the preparation of the patent, a long strip of parchment, to the end of which is affixed the wax seal, the color of which varies, according to the rank of the new member. Another item is the robe, made of scarlet cloth with three doublings of ermine, the number of bars varying according to rank. Thus a duke has four bars in front and the same number behind, a marquis one less, and so on.

Then there are preparations in regard to making or changing coats of arms, in connection with which fees to the extent of about 50 guineas are paid by the recipient of a summons to the house of lords.

Altogether the financial disbursements amount in the case of a new earl to between £600 and £700, some of which finds its way to the chancellor of the exchequer and some to the crown as represented by the college of arms. A considerable portion of this expenditure is, of course, incurred in the purchase of the coronet.—London News.

Don't Break Down.

Severe strains on the vital organs, like strains on machinery, cause breakdowns. You can't over-tax stomach, liver, kidneys, bowels or nerves without serious danger to yourself. If you are weak or run-down, or under strain of any kind, take Electric Bitters, the matchless, tonic medicine. Mrs. J. E. Van de Sande, of Kirkland, Ill., writes: "That I did not break down, while enduring a most severe strain, for three months, is due wholly to Electric Bitters." Use them and enjoy health and strength. Satisfaction positively guaranteed. 50c at Fariss-Klutznick Drug Co.

Blobbs—"It's queer how a popular expression so soon gets overworked." Slobbs—"Yes, even 'the truth in a nutshell' is a chestnut."

Mrs. Jacob Wilmet, Lincoln, Ill., found her way back to perfect health. She writes: "I suffered with kidney trouble and backache, and my appetite was very poor at times. A few weeks ago I got Foley's Kidney Pills and gave them a fair trial. They gave me great relief, so continued till now I am again in perfect health." Holton Drug Co.

Hoax—"Were you ever in a railroad accident?" Joak—"Oh, yes. I once got off at one of those five-minutes-for-refreshments stations, and dropped a sandwich on my foot."

A Man of Iron Nerve.

Indomitable will and tremendous energy are never found where Stomach, Liver, Kidney and Bowels are out of order. If you want these qualities and the success they bring, use Dr. King's New Life Pills, the matchless regulators, for keen brain and strong body. 25c at Fariss-Klutznick Drug Co.

HAMILTON WON'T FLY

AGAIN, SAYS HIS WIFE.

Aviator Hurt in Fall at Sacramento Has Good Chance to Recover, Physicians Say.

Sacramento, Sept. 10.—Charles K. Hamilton, who was badly hurt here last night when he was alighting in his aeroplane at the State Fair Grounds, will probably recover from his injuries, but he will be confined for a long time.

"We hope for the best," said Mrs. Hamilton. "It is all too terrible for me to describe. One thing is certain, however, if Mr. Hamilton gets well, which we are all praying that he will, I will never let him make another flight."

Hamilton had just won a race in his aeroplane against an automobile. He attempted to alight, but his big aeroplane crashed to the earth at an acute angle from a height of 150 feet.

It was thought at first Hamilton was dead. He was rushed in a fast automobile to his hotel and did not regain consciousness until early this morning.

"The jamming of the rudder of the machine caused the sudden drop," was the statement made by Hamilton as he lay swathed in bandages at the hotel. "When I hit, the steering wheel jammed me back against the radiator and held me fast while the scalding water trickled over me."

It Saved His Leg.

"I thought I'd lose my leg," writes J. A. Swensen, of Watertown, Wis. "Ten years of eczema, that 15 doctors could not cure, had at last laid me up. Then Bucklen's Arnica Salve cured it, sound and well." Infalible for Skin Eruptions, Eczema, Salt Rheum, Boils, Fever Sores, Burns, Scalds, Cuts and Piles. 25c at Fariss-Klutznick Drug Co.

NURSES FOR BIRDS.

Plans of New York Woman to Care for Feathered Tribe When Ill.

Training schools for nurses are common enough, but a school for training young women to nurse birds sounds like a novelty. And yet that is what Miss Virginia Pope, bird doctor and surgeon and "mine hostess" to hundreds of canaries and cockatoos and finches and all sorts of feathered folk; when their masters and mistresses are out of town, hopes to establish. She is also going to have a bird ambulance, so that she can send for her patients and boarders in style, and this will be tremendously interesting to every bird that wears a bill—a delicatessen shop for birds, stocked with every kind of goody that they love. Miss Pope also has a plan for training visiting nurses for dogs so that when they all they may be treated at home.

"A sick dog that's taken to the veterinarian's kennel is sure to miss the petting it gets at home, and that retards its recovery more than you'd think," Miss Pope said. "Only today I was told of a dog that dropped so at the veterinarian's that his mistress had to be telephoned to come and take him home."

Two Short Words.

"The best," well describes the satisfaction every user feels when he tries Vick's Croup and Pneumonia Salve for his head or chest cold, or his croupy child. It is a comfort, a cure and a joy. Try a jar and get your money back if not pleased.

No. 2

**CRADDOCK Vamps, Stays, Tops**

We've told the story of Craddock soles and counters and heels—how honestly they are made of the very best leather that money can buy. You can understand now why some shoes break down after a few weeks wear and one or two unfortunate wettings, and why Craddock Shoes are called Long Wear Shoes.

Craddock vamps and tops and linings have their share of the bumps and strains to stand and that they do stand them is because of our care in the selection of the skins and the careful cutting of each shoe part from the best part of the hide adapted to its use.

Craddock Vamps (7) are cut from the "heart" of the hide, the toughest part of the whole skin. The tops (8) are cut from the next toughest parts—the soft, spongy flank leather is never used.

The back stays of a shoe (9) are small parts but very important. They take an enormous amount of strain. Craddock stays are selected from small pieces of the very choicest part of the skin.

You wouldn't think that any shoemaker would scrimp on linings—but they do. It only takes a little piece—it ought to be of the best, but if a fraction of a cent is saved on every pair it will amount to hundreds of dollars in a year. Craddock linings are of the strongest duck—even away down inside where you can't see. There is no seam in the toe to raise the mischief with your feet.

Go to the Craddock dealer in your town and talk shop with him. When you once know the Craddock shoe—you will have found your money's worth of wear—style—comfort.

Marine Band Concert.

Everything is about in readiness for the Marine Band concert in the auditorium Thursday evening. The huge building has been cleaned up, but it will be gone over a second time in order to insure everything being clean. Mr. C. C. The Active Sloth Bear.

"The sloth bear appears to be the most active of all the bears in the zoo. Whoever misnamed the animal ought to bestow a more appropriate title," said a woman visitor who sat on a bench in front of the bear dens. "A more befitting designation would be 'Ursus pugilisticus' or something like that, for he is certainly the most pugilistic of all the bruin specimens here. And he gets away with it, too, although he weighs only 250 pounds. I saw him knock out the hairy eared bear in a fierce fight over a piece of meat, and he gets the better of the great Yezo bear of about 1,000 pounds in the adjoining inclosure. They fight through the bars. You can hear the snapping of the big bear's jaws as he fails to catch his opponent. But the nervous sloth bear is as quick as a cat with his long claws and gets in a dig on the other one's muzzle that makes him snort with pain."—New York Sun.

Salt and the Romans.

Spilling of salt is a superstition still current among us. It is derived from the ancient Romans, who used salt in their sacrifices and regarded it as sacred to Penates. To spill it carelessly was to incur the displeasure of these household divinities. After accidentally spilling salt the ancient Roman was wont to throw some over the left shoulder—the shoulder of ill omen—thereby hoping to call away from his neighbor the wrath of the Deity and turn it upon himself.

Elephants' Love For Finery.

Strange as it may seem, the elephant is passionately fond of finery and delights to see himself decked out with gorgeous trappings. The native princes of India are very particular in choosing their state elephants and will give fabulous sums for an animal that exactly meets the somewhat fanciful standards they have erected. For these they have made cloths of silk so heavily embroidered with gold that two men are hardly able to lift them. —Pearson's Weekly.

Logical.

"Mother," asked little Ethel, "now that you're in mourning for Cousin Adelaide, will you wear black night-dresses too?"
"What an absurd question, child!"
"Oh, I only thought you might be as sorry at night as you were during the day," ventured Ethel.—Harper's Bazar.

Coffin and Stafford will write any kind of insurance for you.

Gladness comes with a better understanding of the transient nature of the many physical ills which vanish before proper efforts—gentle efforts—pleasant efforts—rightly directed and assisted by the pleasant laxative remedy Syrup of Figs and Elixir of Senna. Its beneficial effects are due to the fact that it is the one remedy which promotes internal cleanliness without debilitating the organs on which it acts. To get its beneficial effects always buy the genuine manufactured by the California Fig Syrup Co.
